

# RIDE CINCINNATI

## RIDE CINCINNATI 20 GOES VIRTUAL

Each year, Ride Cincinnati brings together passionate members of the community for a weekend of cycling in support of raising funds to make Cincinnati a leader in world-class cancer care. Over 13 rides, with 10,000+ riders, the event has raised more than \$4.3 million for cancer research and care in our region, leading to 44 research grants funded to make significant advancements towards life-saving cancer treatments. These amazing results would not be possible without the support of you: our dedicated riders, virtual riders, volunteers, supporters and partners.

We have continued to monitor the ongoing developments related to COVID-19 and its impacts on events, like ours, throughout our region. **In order to ensure the safety and health of our participants, we will be moving to a virtual event this year.**

While the recent months have been challenging for all of us, resulting in many different lifestyle adjustments, the need for cancer research has not diminished. As a community committed to ending cancer, we understand this unfortunate reality.

Although a virtual format doesn't enable us to celebrate our accomplishments together, we can certainly rally our network of friends and family to support our cause by making modest donations. Simply put, every contribution goes directly to our cause and adds up to game-changing progress.

We ask you to register as a Virtual Rider. We encourage you to fundraise. We know your efforts will pay off, and we look forward to celebrating with you as soon as we can.
